Dear Colleagues,

We are pleased to invite you to the “International Conference on Neurorehabilitation and Its Associated Disorders”, which will take place during 19 - 20 September, 2019 in Budapest, Hungary.

The conference will bring together delegates from all over the world from Universities, Hospitals, Associations, Scientific Societies, Scientific Groups, Scientific Institutes, Research Fields, Civil Societies and Public Authorities to explore and discuss opportunities and strengths related to Neurorehabilitation, and its significance in treating neurological disorders. During the conference, you can learn and discuss appealing topics and through your participation, you can help develop issues to be further explored.

The interactive exchange of information would also help trainees and young practitioners to improve their professional development, enrich their knowledge and increase their sense of professionalism in the field of Neurorehabilitation And Its Associated Disorders.

Please feel free to forward our invitation to your colleagues and students. We look forward to your participation and to welcoming you in Budapest, Hungary.

Your’s Sincerely,

Aquilus International Services & Conference Organizing Board.

Important Dates:

- Abstract Submission Starts: October 01, 2018
- Early Registration: April 15, 2019
- Standard Registration: June 24, 2019
- Abstract Submission Ends: August 20, 2019
- Registration Closes: September 19, 2019
- Last date of full-text submission for publication: October 07, 2019

Submit your abstract and register for our conference

Our Organization

Aquillus international promotes, support and facilitate the development of scientific research to understand and harness the potentiality of research innovations. Our organization from 2015, has conducted 8 International conferences in different parts of the world. We had successful conferences in Dubai, UAE, Milan, Italy and Singapore. Each of our conference has been represented by attendees from 20 or more countries. We organized these conferences in the best hotels in these countries, providing a great environment for discussion and knowledge sharing. This year 2019, we are conducting 18 conferences in countries Hungary, Spain, Australia, Malaysia, Dubai and India. With the help of experts suggestions and a reputed advisory board, where members are selected from reputed universities, hospitals, research institutes, associations, companies etc., our conferences are being designed and we our company manages logistics in this process. In 2019, we are stepping in to publication and Aquillus Publications will starts its run with 10 new journals with a best internationally acclaimed editorial board support.

Aquillus group is an international conference organizer which organized conferences in different countries around the world. Now it owns and operates Double blind peer-reviewed journals on different fields of Clinical, Medical, Life Sciences, and Engineering. Aquillus journals are launched with a belief of creating an E-Library which will be a major source for the researchers. Our organization has been initiated to make the research papers available online and easily accessible all over the world. Aquillus International promotes, support and facilitate the development of scientific research to understand and harness the potentiality of research innovations. As an inaugural offer, participants attending will avail an opportunity of publishing for free. Submit your Full-Length Articles, before conference dates.

The endeavour of highest intellectual pursuit would act as an effective future delivery system for creating a socio-economic growth, welfare and progress of humanity and we believe, our organization would play a role through our global conferences, conventions, seminars, workshops and research publishing.

We believe in building partnerships across the sectors for innovation towards sustainable food and agriculture. We initiate collaborative and international partnerships by scientific meetings, exhibitions and symposiums, arranged in all parts of the world for students, academicians, researchers, experts, entrepreneurs, business delegates etc... We publish innovative ideas and useful results from researchers which further develops a way to sustainable technology. We scout new technology and further develop a marketing strategy between research institutes and entrepreneurs leading to applied research transfer. We nurture research scholars to new research environment in universal educational system for learning new techniques.

Green Event

Aquilus International believes in green eventing to reduce the direct environmental impact of it, leaving a positive and lasting legacy towards community and coming generations. We see a number of opportunities and benefits can be identified, for our sponsors and exhibitors, our participants, service providers and for the venue region also. From our first conference, we started endorsing, the “Go Green” campaign. The conference material, we use for these conferences are recyclable, such as jute material bags. Though it is a beginning, we are opting several methods for achieving our goal and we welcome any partners all over the world, who could support our motive. They can have a free endorsement in our event and we are would be proud to have you in our website.

Our planning towards a green meeting

- Inserting sustainability in to the employees responsibilities
- Initiatives should be documented at every step
- Educating supply chain system towards sustainability
- Using e-brouchers is an eco-friendly idea
- Knowledge sharing on sustainability in websites
- Including sustainability supporting agencies and documented
- Reducing water use or applying reuse
- Expressing discounts for sustainability
- Increasing sustainability awareness in attendees
- Awareness and knowledge sharing should be recorded
- Sustainable procurement policy towards sustainability
- Reducing paper use
- Calculating carbon emission and recorded
- Energy resources through renewable energy
- Providing public transport to all attendees
- Obtaining ISO – 20121 certification

Advisors

**Roles and Responsibilities**

We believe in a scientific guidance in the form of advisors. We are inviting members with senior positions and experience to be part of our advisory committee. Advisory members will be part of programme designing and sessions building. Any suggestions from our advisory members in conducting meetings in a better manner will be given utmost importance. *Advisory members attending conferences are acknowledged and recognized in the conference programme and also on the official conference website.* Interested members will be honored as chair; co-chair and also keynote could be provided.

Scientific Committee

**Background, Roles and Responsibilities**

Aquilus conferences have scientific committees, which consists of more than 10 members processing abstracts selection and supporting in writing professional content of the conference programme. Preliminarily the abstracts received will be distributed among scientific committee members depending on their expertise. Reviewers are invited to judge abstracts against predetermined criteria. There are guidelines mentioned in submissions section on the criteria for submitting an abstract, which are welcomed to view by both attendees submitting manuscripts as well as by committee members to decide whether to accept or reject an abstract. The whole review process will be time bound and is expected before registration closing process. *Committee members attending conferences are acknowledged and recognized in the conference programme and also on the official conference website.* Interested members will be honored as chair; co-chair and also keynote could be provided.

Speakers

**Role and Process of Participation**

Speakers will be invited from all over the world by our event team to deliver their valuable speeches on respective topics depending on their research. Interested candidates should register to participate in the meeting. The minimum eligibility would be post-doctoral candidates for delivering a talk and this would guarantee a great quality in our meetings. Initially any speaker should submit their abstract through our submission page related to their speech. Speaker should follow submission guidelines and plagiarism is strictly unaccepted. Speaker will be provided the scientific program about the schedule of meeting and any speaker could have opportunity to deliver maximum of two talks. Speaker will be time bound and will be provided 15 – 20 mins for delivering their speech. Interested and highly qualified speakers will be honored with providing important positions in conferences, such as chair, co-chair or will be acting as a keynote speaker. Poster presentations will be accepted from Master students, PhD students, academicians etc. Speakers interested can also present poster presentation. Poster presentation also requires abstract submission. Anybody, who couldn’t attend the meeting could submit an abstract and opt for E-Poster.

Endorsing your company or institution through our conference sponsorship. There are several endorsing methods to enhance the visibility of your company, such as, presenting yourself in our conference, global community mailing, website and workshops. We are very customer friendly and open to offer tailored packages according to requirements.

For those interested, there are different levels of sponsorships with various benefits, Platinum level, Gold level, Silver level, Exhibitor, Lunch Sponsor, Advertisements, Welcome breaks, etc... For more details, please check the tables below:

We contact many experts in the field of science through global community interaction; we can advertise you by displaying your logo in our correspondence and brochures while sending conference invitations.

Workshops are also part of the conference presentations, where your products can be advertised and displayed. Sponsorships and exhibitions offer your organization the opportunity to enhance and promote your brand front of international and national healthcare professionals, quality improvement experts, and key decision and policy makers. Sponsorship and exhibition packages have been carefully designed to provide value through different opportunities:

Budapest is the capital and the most populous city of Hungary. Budapest is a leading global city with strengths in commerce, finance, media, art, fashion, research, technology, education, and entertainment. Budapest is cited as one of the most beautiful cities in Europe. Among Budapest’s important museums and cultural institutions, the most visited art museum is the Museum of Fine Arts, which is noted for one of the largest collections of all periods of European art and comprises more than 100,000 pieces. The central area of the city along the Danube River is classified as a UNESCO World Heritage Site and has many notable monuments, including the Hungarian Parliament, Buda Castle, Fisherman’s Bastion, Gresham Palace, Széchenyi Chain Bridge, Matthias Church and the Liberty Statue. Budapest has a borderline humid continental climate with relatively cold winters and warm summers. Winter (November until early March) can be cold and the city receives little sunshine. Snowfall is fairly frequent in most years, and nighttime temperatures of −10 °C (14 °F) are not uncommon between mid-December and mid-February. The spring months (March and April) see variable conditions, with a rapid increase in the average temperature. The weather in late March and April is often very agreeable during the day and fresh at night. Budapest’s long summer – lasting from May until mid-September – is warm or very warm. Sudden heavy showers also occur, particularly in May and June. The autumn in Budapest (mid-September until late October) is characterized by little rain and long sunny days with moderate temperatures. Temperatures often turn abruptly colder in late October. Spring and Autumn are generally mild. Considering all the favorable factors, Aquilus International chooses Budapest as venue for the conferences.
